DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Assessing the Implementation and Cost of High Quality Early Care and Education: Field Test (0970-0499)

AGENCY: Office of Planning, Research, and Evaluation, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: This information request is part of the project, Assessing the Implementation and Cost of High Quality Early Care and Education (ECE-ICHQ). The project's goal is to create a technically sound and feasible instrument that will provide consistent, systematic measures of the implementation and costs of education and care in center-based settings that serve children from birth to age 5. The resulting measures will inform research, policy, and practice by improving understanding of variations in what centers do to support quality, their associated costs, and how resources for ECE may be better aligned with expectations for quality.

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of

this document in the Federal Register. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following:

Office of Management and Budget

Paperwork Reduction Project

Email: OIRA_SUBMISSION@OMB.EOP.GOV

Attn: Desk Officer for the Administration
for Children and Families

Copies of the proposed collection may be obtained by emailing OPREinfocollection@acf.hhs.gov. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street, SW., Washington, DC 20201, Attn: OPRE Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) seeks approval to collect new information to use in testing measures of the implementation and costs of high

quality early care and education. This information collection is part of the project, Assessing the Implementation and Cost of High Quality Early Care and Education (ECE-ICHQ). The project's goal is to create a technically sound and feasible instrument that will provide consistent, systematic measures of the implementation and costs of education and care in center-based settings that serve children from birth to age 5. The resulting measures will inform research, policy, and practice by improving understanding of variations in what centers do to support quality, their associated costs, and how resources for ECE may be better aligned with expectations for quality. The goals of the study are (1) to test and refine a data collection approach to gather information about implementation activities and costs of key functions within ECE centers and (2) to develop new measures of implementation and costs for use together in understanding ways to support quality. The study has completed two phases of data collection to develop the data collection tools and measures. The study team collected data through on-site visits to 15 centers as part of an initial phase of data collection to pre-test information collections (data collected under clearance #0970-0355). A second phase (OMB #0970-0499) relied on remote data collection through an

electronic cost workbook, telephone interviews, and web-based surveys to gather information from 30 centers in three states to develop preliminary measures of implementation and cost and further reduced and refined the data collection tools.

This proposed new information collection is focused on a field test of the measures to assess the psychometric properties of the implementation measures and to examine the associations between measures of implementation, cost, and quality. The field test will include a mix of remote and on-site data collection.

Respondents: ECE site administrators or center directors, program directors, education specialists, financial managers or accountants, teachers, and aides.

Annual Burden Estimates

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Center recruitment call <i>(to gain participation; assumes outreach to 10 centers for every 1 center needed)</i>				
Center director	800	1	.33	264
Umbrella organization administrator	75	1	.33	25
Center engagement call <i>(to gather basic characteristics and plan steps for participation; assumes 20% may withdraw after this step)</i>	100	1	.50	50

Implementation interview protocol				
Center director	80	1	3	240
Additional center staff	20	1	3	60
Electronic cost workbook	80	1	8	640
Staff rosters for time use survey	80	1	.25	20
Time-use survey	1,120	1	.25	280
Classroom rosters for observations	80	1	.50	40
Total Burden				1,619

Authority: Social Security Act § 418 as extended by the Continuing Appropriations Act of 2017 and the TANF Extension Act of 2019.

Mary B. Jones,

ACF/OPRE Certifying Officer.
